SCIENTIFIC PROGRAM

The conference program comprises 4 Plenary Lectures and 66 contributed sessions, each involving 4 presentations.

The first plenary lecture is the SED lecture given by Charles Plott on July 1st at 17:00, which makes the transition between the Doctoral School in Experimental Economics (June 30- July 1) and the conference. All contributed sessions and the other plenary lectures will be held between July 2nd at 9:00 and July 4th at 18:30.

Participants can register at the conference desks from July 1st at 14:00. Please consult the website for information about how to get to Santral Campus.

Plenary Lectures

SED Lecture

Charles Plott (California Institute of Technology)

Design to influence voting groups in a world of only public goods:
Decentralized social choice and veto powers

Chair: Ayça Ebru Giritligil (İstanbul Bilgi University)

Place: Room 404, ÇSM Building

Murat Sertel Lecture

Stephen Morris (Princeton University)

Information design

Chair: Semih Koray (Bilkent University)

Place: Room 404, ÇSM Building

Paul Kleindorfer Lecture

Rakesh Vohra (University of Pennsylvania)

Scarf's lemma and matching with complementarities

Chair: Hans Peters (Maastricht University)

Place: Room 404, ÇSM Building

Leo Hurwicz Lecture

Eric Maskin (Harvard University)

Elections and strategic voting: Condorcet and Borda

Chair: Walter Trockel (Bielefeld University and İstanbul Bilgi University)

Place: Room 404, ÇSM Building

Parallel Sessions: Overview

[Thursday, July 2]

[9:00- 11:00]	[14:00-16:00]	[16:30-18:00]
Aggregation and Disaggregation	Auctions 2	Implementation
Allocations 1	Bargaining	Auctions 3
Auctions 1	Aggregation and Welfare	Information and Voting
Game Theory 1	Mechanism Design 2	Finance and Markets
Matching 1	Behavioral Game Theory	Political Economy 1
Information	Group Identification	Oligopolistic Games
Mechanism Design 1 (Organized By Weymark J. & Sen A.)	Computational and Experimental Decision Making (Organized By Haake C. J.)	Matching 2 (Organized By Kesten O.)

[Friday, July 3]

[9:00- 11:00]	[14:00-16:00]	[16:30-18:00]
Transferable Utility Games	Assignments 1	Assignments 2
Allocations 2	Auctions 4	Contests
Strategic Communication	Allocations 3	Political Economy 4
Interaction in Networks	Matching 4	School Choice 1
Matching 3	Queuing	Strategy-Proofness 1
Political Economy 2	Political Economy 3	Market Design
Mechanism Design 3 (Organized By Weymark J.A. & Sen A.)	Voting Games	Risk and Equity (Organized By Fleurbaey M.)
	Allocation of Indivisible Goods (Organized By Andersson T.)	

[Saturday, July 4]

[9:00- 11:00]	[14:00-16:00]	[16:30-18:00]
Choice 1	Coalition Formation and Hedonic Games	Risk and Uncertainty
Contracts 1	Social Interaction	Contracts 2
Fairness, Allocation, Costs	Social Choice and Voting	Choice 2
Strategy-Proofness 2	School Choice 2	Mechanism Design 4
Reputation and Leadership	Matching and Contracts	Matching 5
Social Choice 1 (Organized By Peters H)	Game Theory 2 (Organized By Peters H.)	School Assignment
	Optimal Pricing and Auctions (Organized By Bergemann D.)	Strategy-Proofness 3

IMPORTANT

Please notice the following rules which should be respected without any exception!

- In each contributed session, the last speaker is the chairperson for all but the last presentation. For the last presentation, the session's first presenter acts as chairperson.
- All contributed sessions start at full or half hours. Each presentation is 30-minute long. All presentations in contributed sessions, also in those few with only two or three presentations, have to be strictly stopped after 25 minutes by the chairpersons. The remaining 5 minutes are left for discussions or left free.
- It follows that if a session contains less than four presentations, it should end after 90 minutes. The remaining time cannot be used either for extending the length of presentations/discussions, or another unscheduled presentation.

Parallel Sessions July 2 (9:00 -11:00)

Aggregation and Disaggregation

Room 401, ÇSM Building

- Bedrosian G. (Bielefeld University)
Microeconomic Foundations of Representative Agent Models By Means of Ultraproducts
- Börgers T. (University of Michigan)
Reformulation of the Axiomatic Foundations of Relative Utilitarianism
- Maraun N. (University of Paderborn)
Disaggregating Consumer Evaluations
- Nebioğlu D. (İstanbul Bilgi University)
Wealth Effects and Labour Supply: An Experimental Study

Allocations 1

Room 204, ÇSM Building

- Ko C.Y. (National University of Singapore)
Division of a Resource in a Grid Network
- Saral A.S. (University of Trento)
An Agent-based Model of Open-Source Software Development
- Ertemel S. (İstanbul Technical University)
Ex-ante versus Ex-post Proportional Rules for State Contingent Claims
- Xue J. (Singapore Management University)
Claim uncertainty and egalitarian division with wastage

Auctions 1

Room 402, ÇSM Building

- Segev E. (Ben-Gurion University of the Negev)
Sequential Bidding in Asymmetric First Price Auctions
- Yang Z. (University of York)
An Efficient Multi-Item Dynamic Auction with Budget Constrained Bidders
- Derbyshire D. (University of Birmingham)
Sequential Equilibrium and Moral Hazard Auctions
- Delnoij J. (Utrecht University)
Competing First Price and Second Price Auctions

Game Theory 1

Room 203, ÇSM Building

- Duman P. (Istanbul Bilgi University)
An Exact Non-Cooperative Foundation for Nash Solution
- Yamamura H. (Tokyo Institute of Technology)
A Simple and Dynamically Stable Nash Mechanism for the Division Problem with Single-dipped Preferences
- Chakrabarti S. (Queen's University)
Partial Cooperation in Strategic Decision Situations
- Mc Quillin M. (University of East Anglia)
Backward Induction Foundation for the Shapley Value

Matching 1

Room 201, ÇSM Building

- Akahoshi T. (Waseda University)
Acyclicity and the Self-Contained Expectation of the Core In Matching Problems
- Ehlers L. (University of Montreal)
Object Allocation via Deferred-Acceptance: Strategy-Proofness and Comparative Statics
- Tumennasan N. (Aarhus University)
Dynamic Matching Markets and the Deferred Acceptance Mechanism

Information

Room 205, ÇSM Building

- Brandts J. (Barcelona Graduate School of Economics)
Supply Function Competition, Market Power, And the Winner's Curse: A Laboratory Study
- Ngangoué K. (DIW Berlin)
Learning From Unrealized Versus Realized Prices
- Geiger M. (University of Innsbruck)
Coordination Risk, Correlated Fundamental States, and Government Bond Yields in Currency Unions

- Hinnosaar T. (Collegio Carlo Alberto)
Overbooking
- Johnen J. (European School of Management and Technology)
Congestion Pricing: A Mechanism Design Approach
- Messner M. (Bocconi University, IGIER and CESifo)
Selling to the Mean and the Variance
- Paulsen P. (Technical University of Munich)
First-Price Package Auctions in a Principal-Agent Environment

Parallel Sessions July 2 (14:00-16:00)

Auctions 2

Room 401, ÇSM Building

- Boudreau J.W. (University of Texas-Pan American, Department of Economics and Finance)

- Carlson J.I. (Lund University)
An Approximative Auction for When Bidders Have Non-Quasi-Linear Preferences
- Fugger N. (University of Cologne)
Trust in Procurement Interactions
- Gillen P. (University of Cologne)
Pre-Auction or Post-Auction Qualification?

Bargaining

Room 202, ÇSM Building

- Karagözoğlu E. (Bilkent University)
Between Anchors and Aspirations: A (New) Family of Bargaining Solutions
- Lang X. (Tilburg University)
On the Impossibility of Non-Constant Divisions in Bargaining with Correlated Types
- Hwang I. (University of Miami)
Transparency of Outside Options in Bargaining
- Eraslan H. (Rice University)
Coalitional Bargaining

Aggregation and Welfare

Room 402, ÇSM Building

- Østerdal L.P. (University of Southern Denmark)
First Order Dominance: Characterization and Two Checking Algorithms for the Bivariate Case
- Herzberg F. (Bielefeld University)
Respect for Experts or Respect for Unanimity? The Liberal Paradox in Probabilistic Opinion Pooling
- Schoch D. (Nottingham University)
Game Form Representation for Judgement and Arrovian Aggregation
- Zwicker W. (Union College)
Aggregation of Binary Evaluations: A Borda-like Approach

Mechanism Design 2

Room 201, ÇSM Building

- Quadir A. (Osaka University)
Mechanism Design in Single Dimensional Type Spaces
- Krämer F. (LMU Munich)
Delegating Pricing Power to Buyers: An Experimental Investigation
- Juarez R. (University of Hawaii)
Implementing Efficient Allocations in Bilateral Networks
- Sharma T. (ITAM)
Money- Back Guarantees

Behavioral Game Theory

Room 204, ÇSM Building

- Neugebauer T. (University of Luxembourg)
Taming Selten's Horse by Impulse Matching
- Smith J. (Rutgers University)
Cognitive load and mixed strategies
- Nagel R. (ICREA & Pompeu Fabra University & BGSE)
De-framing Rules to De-anchor Beliefs in Beauty Contest Experiments: Keynesian Level- k vs. Keynesian Sentiments
- Meloso D. (Rennes School of Business)
The Mechanics of Reputational Cheap Talk: An Experiment with Crystal Balls

Group Identification

Room 205, ÇSM Building

- Çağlayan D. (İstanbul Bilgi University)
In-Group Favoritism vs. Social Efficiency Concerns
- Tapkı G.İ. (Kadir Has University)
Two Simple Characterizations of the Liberal Rule Based On Consistency Requirement
- Krupka E. (University of Michigan)
Mirror on the Network: Peer Selection and Endogenous Preferences
- Ju B.G. (Seoul National University)
Multinary Group Identification

- Epp, L. (University of Paderborn)
Consecutive moral decision-making: evidence from an economic experiment
- Cord-Landwehr A. (University of Paderborn)
Network Creation Games: Think Global -Act Local
- Drees M. (University of Paderborn)
Approximate Pure Nash Equilibria in Bandwidth Allocation Games
- Skopalik A. (University of Paderborn)
Approximate Pure Nash Equilibria in Weighted Congestion Games

Parallel Sessions July 2 (16:30-18:00)

Implementation

Room 201, ÇSM Building

- Azacis H. (Cardiff University)
Repeated Implementation
- Dalkıran A. (Bilkent University)
Epsilon-Ex Post Implementation
- Lopez H. (University of Maryland)
Practical Implementation of a Traffic Congestion System

Auctions 3

Room 203, ÇSM Building

- Bobkova N. (University of Bonn)
First Price Auction with Asymmetrically Budget Constrained Bidders
- Boscan L. (Copenhagen Business School)
The Reverse Product-Mix Auction and Further Extensions
- Di Corato L. (Uppsala University)
Procurement Auctions for Conservation Contracts with Embedded Real Options

Information and Voting

Room 401, ÇSM Building

- Haake C.J. (University of Paderborn)
Strategic Formation of Customer relationship Networks

- Gitmez A.A. (MIT)
Student Exchange with Partial Fairness
- Phan W. (University of Rochester)
Efficiency, Strategy-Proofness, and the Partial-Endowment Lower Bound in the Object Re-Allocation Problem
- Kesten O. (Carnegie Mellon University)
Curse of Stability: The Appeals round of the NYC High School Match

Parallel Sessions, July 3 (9:00-11:00)

Transferable Utility Games

Room 201, ÇSM Building

- Derya A. (Bilkent University)
A Characterization of the Myerson Value
- Doğan E. (HSE Moscow)
An Egalitarian Solution to Minimum Cost Spanning Tree Problems
- Koray S. (Bilkent University)
Every Member of the Core is as Respectful as Any Other
- Gomez J.C. (University of Washington,Bothell)
An Aspiration Core Convergence Theorem

Allocations 2

Room 203, ÇSM Building

- Büyükboyacı M. (METU)
The Effect of Bankruptcy Rules on Investment Behavior: An Experimental Test
- Flanagan F.X. (Wake Forest University)
Group Housing Allocation: Collusion, Fairness and Efficiency
- Rastegari B. (University of Glasgow)
Pareto Optimality in the Many-to-Many House Allocation Problem with Indifference
- Thomson W. (University of Rochester)
On The Water Allocation Problem

Strategic Communication

Room 401, ÇSM Building

- Gesche T. (University of Zurich)
Debiasing Strategic Communication?
- Özyurt S. (Sabancı University)
A Fraudulent Expert and Short-Lived Customers
- Yıldırım M. (Melikşah University)
Pre-Contest Communication Incentives
- Wang R. (University of Edinburgh)
Correlated Information Games

Interaction in Networks

Room 204, ÇSM Building

- Kovarik J. (University of the Basque Country)
(Anti-) Coordination and Equilibrium Selection in Networks
- Kvasow D. (University of Adelaide)
From Sabotage Games to Border Protection
- Kumar R. (Queen's University Belfast)
Resource Allocation in a Network
- Bolton G. (University of Texas in Dallas)
Inflated Reputations: Leniency and Moral Wiggle Room in Trader Feedback Systems

Matching 3

Room 402, ÇSM Building

- Hoyer B. (University of Paderborn)
Matching Strategies of Heterogeneous Agents in a University Clearinghouse
- Huesmann K. (University of Cologne)
Constraints on Matching Markets Based on Moral Concerns
- Kotowski M. (Harvard University)
Multi-period Matching
- Morimoto S. (Kobe University)
Strategy-proofness, Efficiency, and the Core in Matching Problems with Transfers

Auctions with Limited Commitment
- Mishra D. (Indian Statistical Institute)
Local Incentive Compatibility with Transfers
- Ruckert D. (University of Cologne)
Robust Mechanism Design and Social Preferences
- Anbarcı N. (Deakin University)
Designing Fair Tiebreak Mechanisms the Case of Fifa Penalty Shootouts

Parallel Sessions, July 3 (14:00-16:00)

Assignments 1

Room 201, ÇSM Building

- Atay A. (University of Barcelona)
Generalized Three-Sided Assignment Markets Consistency and Core
- Nesterov A.S (WZB, Berlin)
Fairness and Efficiency in a Random Assignment: Three Impossibility Results
- Robles F. (University of Barcelona)
One-Seller Assignment Markets with Multi-Unit Demands: Core and Competitive Equilibrium
- Alkan A. (Sabancı University)
Pairing Games And Markets

Auctions 4

Room 202, ÇSM Building

- Mass H. (University of Cologne)
The Limits of Non-discriminatory Mechanisms in Procurement
- Kasberger B. (University of Vienna)
On the Clock of the Combinatorial Clock Auction

Allocations 3

Room 203, ÇSM Building

- Kazumura T. (Osaka University)
Anonymous Mechanism for Object Allocation without Quasilinearity
- Klamler C. (University of Graz)
Maximin Envy-Free Division of Indivisible Items
- Akyol E. (TOBB-ETU)
Welfare Comparison of Allocation Mechanisms under Incomplete Information
- Szwagrzak K. (University of Southern Denmark)
Priority Classes And Weighted Constrained Equal Awards Rules For The Claims Problem

Matching 4

Room 204, ÇSM Building

- Arnosti N. (Stanford University)
Shortlists in Centralized Clearing Houses
- Gudmundsson J. (Lund University)
Sequences in Pairing Problems
- Papai S. (Concordia University)
Reasonably and Securely Stable Matching
- Park J. (Yonsei University)
Competitive Equilibrium and Singleton Cores in Generalized Matching Problems

Queuing

Room 401, ÇSM Building

- Kayı Ç. (Del Rosario University)
Queuing Problems with Exit Option
- Onderstal S. (University of Amsterdam and Tinbergen Institute)
Trading Places: An Experimental Comparison of Reallocation Mechanisms for Priority Queuing
- Breinbjerg J. N. (University of Southern Denmark)
Strategic Behavior and Social Outcomes in a Bottleneck Queue: Experimental Evidence
- Sürücü O. (Bielefeld University)
The Impact Of Time Pressure: Insights From A Queuing Experiment

Voting Games

Room 402, ÇSM Building

- Basteck C. (Technical University of Berlin)
The Borda Count and Dominance Solvable Voting Games
- Courtin S. (University Cergy-Pontoise)
Dichotomous multi-type games: Shapley-Shubik and Banzhaf-Coleman power indices
- Nganmeni Z. (THEMA, University Cergy-Pontoise)
The Owen and Shapley Spatial Power Indices: A Comparison and a Generalization
- Nikram E. (University of Exeter)
A generalized Hotelling-Downs model with Incumbents

Allocation of Indivisible Goods (Organized By Andersson T.)

Room 404, ÇSM Building

- Erlanson A. (University of Bonn)
Allocating divisible and indivisible resources according to conflicting claims: collectively rational solutions
- Serizawa S. (Osaka University)
When are Strategy-Proof And Efficient Rules Possible In Objects Allocation With Money?
- Velez R. A. (Texas A&M University)
Perfect full implementation: a robust, simple, fair, and natural alternative
- Andersson T. (Lund University)
Transferring Ownership of Public Housing to Existing Tenants: A Mechanism Design Approach

Parallel Sessions, July 3 (16:30-18:00)

Assignments 2

Room 203, ÇSM Building

- Troyan P. (University of Virginia)
Improving Welfare in Assignment Problems: an Experimental Investigation
- Hafalır İ. (Carnegie Mellon University)
Welfare-Maximizing Assignment of Agents to Hierarchical Positions
- Kratz J. (Lund University)
Overlapping Multiple Assignments

Contests

Room 205, ÇSM Building

- Kirysheva I. (European University Institute)
Optimal Prize Allocation in Contests with Sabotage
- Olszewski W. (Northwestern University)
Effort-Maximizing Contests
- Chen Z. (London School of Economics)
Spying in Contests

Political Economy 4

Room 401, ÇSM Building

- Gönültaş S. (Doğuş University)
Effects of Government Policies on Location Choice of a MNC between Asymmetric Countries
- Sayag R.S. (Pompeu Fabra University and GSE)

- Fleurbaey M. (Princeton University)
Long-term Discounting: Max or Min

Parallel Sessions, July 4 (9:00-11:00)

Choice 1

Room 201, ÇSM Building

- Masatlıoğlu Y. (University of Michigan)
A Random Attention Model
- Ülkü L. (Instituto Tecnológico Autónomo de México)
Stochastic Complementarity
- Kıbrıs Ö. (Sabancı University)
Limited Attention and Status Quo Bias

Contracts 1

Room 203, ÇSM Building

- Campioni E. (University of Roma II, Tor Vergata)
Multiple Principle Multiple Agent Games with Exclusive Competition
- Schlegel J.C (University of Lausanne)
Contracts versus Salaries in Matching: A General Result
- Bejan C. (University of Washington, Bothell)
Performance-Based Contracts, Monitoring and Fraud

Fairness, Allocation, Costs

Room 401, ÇSM Building

- Raghavan M. (Indian Statistical Institute)
Fair Allocation with Exact Capacity Constraints
- Zheng M. (University of Macau)
Distributive Justice and the Threshold Level of Resource in the Fair Resource Allocation
- Hougaard J. L. (University of Copenhagen)
Sharing the Cost of Risky Projects
- García A.S. (University of Granada)
Fairness in Tax Compliance: A Political Competition Model

Strategy-Proofness 2

Room 204, ÇSM Building

- Tierney R. (University of Rochester)
Dense Manipulability of Efficient and Voluntary Exchange Rules
- Öztürk M. (MEF University, Istanbul)
On the Location of Public Bads: Strategy-Proofness under Two-Dimensional Single-Dipped Preferences
- Zhou Y. (Osaka University)
Strategy-Proofness and Efficiency for Common Object Ranking Preferences

Reputation and Leadership

Centrality, stratification and adverse effects: network formation with value heterogeneity

Social Choice and Voting

Room 402, ÇSM Building

- Dindar H. (İstanbul Bilgi University)
Vote Swapping in Representative Democracy
- Jeong H. (Seoul National University)
Resolute Majority Rules
- Chen Y. (Johns Hopkins University)
Dynamic Agenda Setting
- Sarpa S. (Koç University)
Majority Choice of an Income Targeted Educational Voucher

School Choice 2

Room 203, ÇSM Building

- Jaramillo P. (University of Los Andes)
Transparency in School Choice
- Chen L. (Université libre de Bruxelles)
Self-Selection in School Choice: Theory and Evidence from Mexico City High School Match
- Kurino M. (University of Tsukuba)
College Admissions with Entrance Exams: Centralized versus Decentralized
- Van der Linden M. (Vanderbilt University)
A New Method to Compare Manipulable Mechanisms, with Applications to School Choice

Matching and Contracts

Room 204, ÇSM Building

- Alva S. (University of Texas at San Antonio)
Pairwise Stability and Complementarity in Matching With Contracts
- Afacan M. O. (Sabancı University)
Graduate Admission with Financial Support
- Turhan B. (Boston College)
Dynamic Reserves in Matching Markets with Contracts: Theory and Applications
- Westkamp A. (Maastricht University)
Strategy-Proofness and Stability for Matching with Contracts

- Keskin K. (Bilkent University)
Organizational Refinements of Nash Equilibrium
- Schröder M. (Maastricht University)
Waiting in the Queue on Hotelling's Main Street
- Vermeulen D. (Maastricht University)
On Pure-Strategy Nash Equilibria in Price-Quantity Games
- Zseleva A. (Maastricht University)
Optimal Finitely Additive Strategies in Zero-Sum Games

- Lamba R. (Cambridge University)
Efficiency with(out) Intermediation in Repeated Bargaining
- Baisa B. (C (Amherst College)
A Detail-Free and Efficient Auction for Budget Constrained Bidders
- Farinha Luz V. (EUI and University of British Columbia)
Robust dynamic pricing

Parallel Sessions, July 4 (16:30-18:00)

Risk and Uncertainty

Room 205, ÇSM Building

- Omrane W.B. (Goodman School of Business at Brock University)
Exchange Rate Volatility Response to Macroeconomic news during Economic Expansions and Recessions

PRACTICAL INFORMATION

CONFERENCE VENUE: SANTRAL CAMPUS, ISTANBUL BILGI UNIVERSITY

Address:

Eski Silahtarağa Elektrik Santralı
Kazım Karabekir Cad. No: 2/13
34060 Eyüp İstanbul

In its original incarnation, before restoration and conversion into Bilgi University Santral Campus, the Silahtarağa Power Plant was the Ottoman Empire's first urban-scale power plant. The facility went into service on the Golden Horn, İstanbul's oldest industrial area, in 1911 and supplied the city with electricity up until 1983. Today, the power plant stands as a unique industrial heritage site following its conversion into Santral Campus, a project which involved the collaboration of public sector, private sector and non-governmental organizations alike. Opening its doors on 8 September 2007, Santral Campus is one the most exhaustive conversion projects to be carried out in Turkey in the field of arts and culture.

Santral Campus has hosted over 20 national and international exhibitions since opening. Together, these exhibitions have attracted more than 500,000 visitors. In addition, Santral Campus has welcomed numerous leading international artists and thinkers for various events.

Santral campus is easily accessible by taxi and public buses. The conference building is named ÇSM. On Santral campus, this is the big building contiguous to the old electric plant. You will easily find the ÇSM building by looking at the outdoor signage displayed on the main campus square. The registration desk is at the entrance of the building. Throughout the conference, our staff is available to guide you and to answer your question, either at the desk or at the conference Office (4th floor).

CONFERENCE SHUTTLES

Conference shuttles are operating from July 1st to July 4th.

On July 1st, shuttles to Santral campus will operate from the Pera district and from the Golden Horn district at 14:00, 15: 00, and 16:00. Shuttles are also organized from Santral campus to Pera Palace for the welcome reception. Departure from Santral campus at 19:00. Pera Palace is at a short walking distance to all conference hotels in the Pera district. For people staying in the Golden Horn district, a shuttle will depart from Pera Palace at the end of the reception.

On July 2nd and July 3rd, shuttles operate according to the timetable below

July 2 and July 3	Morning	Afternoon
PERA DISTRICT	Departure at 8:15 Round trip until 9:15	Departure at 18:30
GOLDEN HORN DISTRICT	Departure at 8:30 Round trip until 9:30	Departure at 18:30

Throughout the day, regular shuttles operated by Istanbul Bilgi University are available. They commute between Santral campus and KABATAŞ (please check on the windscreen). You can find shuttle hours at <http://www.bilgi.edu.tr/en/university/transportation/shuttle/?transportation-menu>. From KABATAŞ, you can access Taksim square by funicular. Taksim square is at a walking distance to the Pera district. Taxis are also available. Just outside of campus, city buses also commute between Santral and Taksim or the Golden Horn shore. Please contact our staff for more information. In case of major problem, please contact Koray Özkan (+90 (0) 5324356848) or Jean Laine (+90 (0) 5306408799).

On July 4th, the shuttle timetable is

July 4	Morning	Evening
PERA DISTRICT	Departure at 8:15 Round trip until 9:15	Departure from the boat peer at 23:30
GOLDEN HORN DISTRICT	Departure at 8:30 Round trip until 9:30	Departure from the boat peer at 23:30

İSTANBUL BİLGİ UNIVERSITY

Since its foundation, BİLGİ has attempted to establish a cultural and scientific community that promotes tolerance and respect for a diversity of individuals with different lifestyles, beliefs and ways of thinking within the framework of contemporary universal values, while at the same time maintaining strong ties with all segments of the society. BİLGİ community includes more than students; it also includes faculty, alumni, families, employers and neighboring communities where BİLGİ is located.

Being part of Laureate International Universities Network, the founding premise of BİLGİ has become ‘to make education more accessible and affordable so that more students can pursue their dreams’. BİLGİ seeks to educate free-thinking, creative, intellectually curious and enterprising individuals who will contribute to a world in which knowledge is accessible to all and, indeed, in which access to it has come to be seen as a fundamental human right. BİLGİ holds a primary responsibility for providing, maintaining and further developing an academic environment in which both students and faculty members are able to engage in learning and the production of knowledge at the highest level.

Students benefit from the advantages of studying at BİLGİ throughout and after their studies with 45 undergraduate and over 30 graduate programs and 15 vocational schools. Students at BİLGİ:

- can have a true international experience thanks to the Laureate International Universities Network membership,
- can study, obtain a double degree or continue their studies at undergraduate or graduate program levels at over 60 institutions in 27 countries,
- take part in social responsibility projects,
- work at non-governmental organizations,
- actively join the works of around 20 research centers and develop projects,
- participate in over 400 scientific and cultural activities every year at award-winning campuses located in the heart of the city.

İstanbul Bilgi University offers its students a true university experience. Students at BİLGİ not only prepare for their professional business lives but aim

at developing into responsible individuals that are sensitive to their environment, sharing the worries of their community and making a contribution to the society.

Adopting the principle of “Non scholae, sed vitae discimus” (We do not learn for the school, but for life), İstanbul Bilgi University took its place within the Turkish system of higher education as a civil corporation after the application made by the Bilgi Education and Culture Foundation on 7 June 1996 and the subsequent approval by the Turkish Grand National Assembly according to Law number 4142.

Over time, İstanbul Bilgi University has grown to encompass 3 main campuses, Kuştepe, Dolapdere and Santral, that total 160,000 square meters and it is on these three campuses that it continues to serve its students and the academic world in Turkey.

Having realized many firsts in its 15 years and with the aim of increasing the quality of education and research and becoming a university that can compete globally, İstanbul Bilgi University began a long term partnership with Laureate Education, one of the largest international education networks in the world, in 2006 and continues to be a part of this network.

The university currently has around 11,000 students, 600 academic staff members, 6 faculties, 4 institutes, 4 schools, and 7 programs associated with its vocational schools, and around 100 programs that provide education to its associate, undergraduate and graduate students. As of 2014, a total of over 14,000 students have graduated from the university.
